Dear Mr. Haubold:

Re: Field Visit to Pandora, Velvet, Rim and Calliham Sites, M/037/012, M/037/040, M/037/006, and M/037/023, San Juan County, Utah

I'd like to thank you and your staff, once again, for the tour last week. Since this was my first visit to several of these sites, the trip was well worth the time and very informative.

I have provided for you an enclosed copy of my report on the field trip. The report discusses some of the maintenance items we discussed on site and talks about the acreage estimate at the Calliham. I planimetered the disturbed acreage from the Atlas maps, based on what we measured in the field. We did not look at the boreholes and borehole access roads while at the site; however, I assume these have not yet been reclaimed. We have not yet looked at the bond. This information will be forthcoming.

Thank you for your cooperation and interest regarding Division requirements.

Sincerely,

Holland Shepherd
Reclamation Soils Specialist
